**DETAILED ACTION**

*EX. Amet.*

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. This application is in condition for allowance except for the presence of claims 3, 4, and 13-15 to the species non-elected without traverse. Accordingly, claims 3, 4, and 13-15 have been cancelled.

3. Authorization for the examiner's amendment to Claim 11 was given in a telephone interview with Philip Miller on 11/23/2004.

4. The application has been amended as follows:

**Cancel Claims 3, 4, and 13-15.**

**Claim 11, Line 3:** Replace "sidewardly" with "sideward"

***Allowable Subject Matter***

5. **Claims 1, 2, and 7-12 are allowed.**

6. The following is an examiner's statement of reasons for allowance: The prior art does not teach the claimed method of **forming a through-hole for a pressure chamber by etching from both sides of the pressure chamber plate, using resists of similar shape but different length**. U.S. Patent 6,789,319 to Furuhashi et al., made of record, is provided to indicate the state of the prior art. Furuhashi et al. teaches a method of etching a trapezoidal through-hole in an ink-jet chamber plate, but does not

teach the method of using resists of similar shape but different length as claimed in the instant application.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
